Presentation Made To Minister And Family Evangelical Church

Following the annual business meeting of the Evangelical Church, Monday evening last, the congregation presented the Rev. and Mrs. Roppel and family with an illuminated address and a purse generously filled.

The presentation address was as follows:

The Rev. Roppel and family:

For the past four years, we, the congregations of the Evangelical Church of Didsbury, Westcott and Sunnyslope have enjoyed your fellowship with us in public worship and as well your visits with us in our homes and social functions.

You will gratify us by appropriating to your use this gift. It is presented by the many friends of your congregations as a slight token of the very high esteem in which you are held by the people as a Christian leader and instructive preacher. We trust that its acceptance will afford you as much pleasure as it has given us in the presentation.

May God's richest blessing accompany you and you be spared that we may continue our worship together in this field of labor.

Signed by the congregations.

A horseshoe league has been organized, consisting of four teams, Didsbury, Olds, Lone Pine and Barnside. Didsbury plays their first game at Olds Friday evening.

Pheasant Eggs Distributed By Local Game Association

FINE TROPHY FOR CAMPAIGN AGAINST CROWS AND MAGPIES

Farmers, ranchers and other sportsmen, wishing to get pheasant eggs for hatching, and live pheasant chicks in connection with the stocking movement which is spreading rapidly throughout the province, have been able to secure supplies through the Calgary Fish and Game Association. The association operates without profit. It is actuated by the desire to help the stocking movement.

Those who are interested may secure information by communicating with the secretary of the Calgary Fish and Game Association, c/o The Calgary Herald.

The Alberta association and the local associations are also conducting a vigorous campaign against crows and magpies. The suggestion emanating from the Hanna Fish and Game Association that a trophy for competition between the thirty-five locals in the province be donated, resulted in a generous contribution by Mr. A. E. Cross, of Calgary, of a trophy for this purpose.

The regulations respecting the trophy will be announced later.

The Alberta association is backing up the U.F.A. and Alberta government in the war against pests.

the municipal districts. In Competition 4 the eggs and feet of birds and tails of gophers killed shall be delivered to the teacher or Secretary of the school attended by the pupil, which shall be destroyed by same and a receipt given therefor.

Competition 1 shall be open to gun clubs, game protective associations or other organizations, while Competition 2 shall be open to any resident of the province. Such feet, eggs and tails shall be delivered to the nearest Justice of the Peace or nominee of the Department of Agriculture and a receipt obtained therefore. Receipts shall be delivered to the Department of Agriculture, Edmonton not later than Nov. 20, 1929.

Points are credited as follows: Four points for each crow or magpie killed (2 points for each foot produced); two points for each crow's or magpie's egg; 1 point for each gopher's tail. Notwithstanding anything in the above regulations any person who obtains these trophies by his own efforts and delivers same to the authorized persons on or before June 30, 1929 will be entitled to points as follows: Feet of crows and magpies, 5 points each; Eggs of crows and magpies, 5 points each; tails of gophers, 3 points each. Receipts obtained for these trophies must be forwarded to the Department by July 20.

Through the efforts of the local Fish and Game Association 200 pheasant eggs were distributed on Tuesday last throughout the district.

It is pointed out that all interested in the association should become members. The Didsbury branch has the nucleus of one of the biggest branches in the province. Contributions to help defray the cost of game bird eggs are welcome.

WEDDING

WAITE—PRATT

The marriage of Mr. Harry Waite and Miss Florence Pratt took place on Saturday, May 25, at 8 o'clock, p.m., at St. Cyprian's Church, Didsbury. Rev. Clay of Olds, officiated. During the signing of the register Mrs. W. H. Burrows sang "O Promise Me." Following their honeymoon they will reside on the groom's farm east of Didsbury.

Gas Tax Collection Plans Now Complete Premier Declares

The gasoline tax act, 1929, passed at the recent session of the Legislature, by provision on which the tax on gasoline is raised from three to five cents a gallon, will be proclaimed as from June 1.

Premier Brownlee stated Tuesday that arrangements have been completed whereby the gasoline and oil companies would act as government agents for the collection of the tax on an increased basis.

Provision is made in the act for a refund of four cents of the tax for gasoline used for specified industrial purposes.

AGRICULTURAL STATISTICS

Statistics are often considered dry reading and of little interest by many of the general public. An awakening of interest, however, has recently been apparent, particularly on the part of farmers, not only in the West but also in Eastern Canada. More than ever are the farmers appreciating the necessity of having reliable reports on the current agricultural situation in Canada, particularly as a clue to what is likely to happen to prices and marketings in the near future.

Official reports of this kind are, of course, prepared by the Federal and Provincial Governments. At some time or other, everybody has wondered how the Government arrives at the conclusions contained in these reports. In the case of crop and live stock statistics, an annual survey is made. This is carried on by the voluntary aid of the farmers themselves. Just now the Bureau of Statistics of the Dominion Government is engaged in closing up arrangements for the gathering of information on which the crop reports and farm statistics for the current year will be based.

Whether or not such information is accurate and complete depends on how many farmers report and how fully they answer the questions submitted. It is also a fact that if full and complete information is supplied, the official report will give the farmer a fairly accurate picture of the trend of affairs. Every farmer should supply the Government with information showing areas seeded to different crops, numbers of live stock kept and other information that is asked for, so that a complete official report of agricultural conditions can be issued. Such individual reports are, of course, held in the strictest confidence; only the combined totals and trends are given out.

Didsbury Baseballers Defeat Olds 12 to 1 Monday Evening Last

The Didsbury baseball team won their first game of the season when they defeated Olds 12-1, Monday evening last, at Olds. Mix, a newcomer to Didsbury, was on the mound for the locals for the first five innings, allowing no hits and no runs, striking out nine men. Jim Luft relieved Mix in the sixth and last inning, allowing only one run, which was made by two errors in the infield.

Olds used five pitchers in the six innings, but to no advantage. The locals hit every pitcher used, making ten safe hits.

The next home games are: Innisfail, Monday, June 3, and Olds on Wednesday, June 5. Didsbury goes to Red Deer Friday night.

WEDDINGS

FOLKMAN—DAGEFORDE

The wedding of Miss Marguerite Dageforde and Mr. Otto Folkman aroused much interest in the community since both bride and bridegroom move in a wide circle of friends. Miss Dageforde is the youngest daughter of Mr. and Mrs. W. Dageforde of Westcott. The groom is the son of Mrs. F. Folkman of Didsbury. The wedding took place at St. Paul's Lutheran Church, Westcott, Saturday, May 25 at 8 p.m. The Rev. C. Nissen officiated. The church was artistically decorated for the occasion.

For her bridal gown the bride wore white georgette, fashioned simply, with ruffles of satin lace on the skirt and silk flowers between the shirring at the waist. Her flowing veil was held in place by a wreath of orange blossoms and her bouquet, heavily showered, of bridal roses. She was given in marriage by her brother, Mr. Herman Dageforde. Miss Greta Bartz played Lohengrin's wedding march and little June Jacobsen was flower girl, strewing flower petals along the bride's path. June's dainty dress was of pale green organdie and in her basket she carried red and yellow tulips. Miss Elmer Folkman, sister of the groom, attended as bridesmaid, attired in a dress of yellow organdie and carrying a bouquet of yellow carnations and a head dress a wreath of silver leaves. The groom was supported by his brother, Teddy Folkman. Messrs. John and Fred Folkman were the ushers. During the signing of the register, Miss Ruth Pap-

The Power Of Small Things

The following item was recently printed in a large number of news papers:

"Forty-five years ago there was a strike in an Ohio coal mine. A group of enraged miners took a car of coal, set it afire, and pushed it down into the mine. That fire is still burning under ground, spreading many miles, destroying valuable coal deposits and rendering hundreds of acres of surface ground sterile. Today it threatens to destroy a school building and some homes in a village. Burning beneath them it is undermining the ground and may cause them to collapse. The fire that a moment's anger started 45 years ago certainly turned out to be a bigger thing than the men who started it ever imagined."

There is a moral to this incident which might well be heeded, for, after all, it is but an illustration, a spectacular one, it is true, of almost every day happenings. The moral is that a small act may have far-reaching consequences, either for good or for evil.

A cow kicked over a lamp in a barn in Chicago, and the Great Chicago Fire resulted.

A frenzied student assassinated an Austrian Grand Duke and his wife, and the Great War was the immediate outcome with its sacrifice of ten millions of lives and hundreds of billions of dollars in property and other losses.

An employee is dismissed in anger, and perhaps unjustly, and a nationwide strike follows bringing suffering and ruin in its wake.

A careless workman, or a dishonest contractor, neglects to put a sufficient quantity of cement in the foundations of a building or in the piers for a bridge, or the retaining wall of a dam, and disaster follows taking heavy toll in human lives.

A rotten timber is used in building a ship, and the vessel sinks; a faulty rail is laid in a track, and a train is wrecked; a careless camper neglects to put his fire, and a terrible conflagration wipes out a forest.

And how often has a hasty word, an insulting remark, led to family and business estrangements with dire results to all concerned.

How often, too, has the peace and friendliness of an entire community been destroyed because of the whispered scandal, the unguarded reflection upon the honor and integrity of another, the prejudiced utterance casting aspersions upon those of different races or religious beliefs.

All little things in comparison to their terrible effects and disastrous results!

Fortunately, for the human family, the reverse is also true.

We still recall our childhood's interest in the story of the little Dutch boy who by sticking his finger in the small hole in a dam saved his country from inundation. We delight in the personal histories of great men and women who were started on their careers by the kindly, encouraging word of some friend.

We know, too, by personal observation that the mighty oak is born of the humble acorn; that it was in a single kernel of wheat the hundreds of millions of bushels of Marquis wheat annually harvested in Western Canada had their origin.

If we would but remember and give heed to the fact that, just as a pebble thrown into the water causes ever widening circles of little waves to sweep its surface until finally they lose themselves upon the shore, so does every word and act of ours create little circles of influence radiating out into our homes, our offices, our communities and the world at large, and, for good or ill, affecting the lives and future of others and of our country, then, perchance, we would be more careful, more considerate, a little less hasty and impatient of others, and more inclined to extend that degree of sympathy and tolerance to others which we naturally expect will be displayed towards us.

Satisfied Money Was Safe

A man deposited \$10,000 in a bank. A few weeks later he approached the teller and demanded his money. He was asked if he did not want to leave a small balance. "No," he persisted, "I want my money." So the teller counted out \$10,000. By this time a line of people had collected, each one waiting his turn. The man counted the bills very carefully and handed them to the teller.

"Here," he said, "put it back. I only wanted to see if it was all there."

Nation-Wide Fame. — There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back, and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

A town is made beautiful by each one doing his share in fixing up his own property. It's a case of "You in your small corner and I in mine."

Simple Precautions Against FLU

Sore Throat —

— The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

The World's Air Centre

British Ports Will Be Headquarters In Next Decade Is Prediction

Only a decade or two hence and airplanes and airships may be leaving British ports for all quarters of the Empire and of the world as regularly as steamers do now. From coach to railway, from sailing ship to the steam and oil-driven Leviathans of today, from the horse to the car, from the balloon to the airplane, the great job of annihilating time and space goes on. And at each new step, in each successive phase, British inventiveness, British engineering, and British pluck are to the fore. In the air as on the waters, Nature has marked us down as the centre of the world.—London Daily Express.

A QUICK WAY TO END BABY'S UPSET SPELLS

"Like other young mothers, I worried every time Baby cried," says a Syracuse, N.Y. woman. "Several times when she was upset or constipated, I tried castor oil but she couldn't retain it. Our doctor told me to try Fletcher's Castoria because it is harmless and babies like it. That ended my worries and I've used it since for all my children." Castoria never fails to delight mothers by the quick way it ends those upsets of babies and children, such as colic, constipation, colds, etc. That's the reason for its tremendous sale and popularity. Like all good things, it's imitated, but genuine Castoria—the purely-vegetable product—always bears the Fletcher signature.

California is likely to become the first horseless state in the United States, for horses are rarely used there now except in isolated regions.

WOMEN WHO SUFFER

Anaemia Responsible For Most Of The Ills Of Girls and Women

Medical science shows that most of the ills that afflict growing girls and women are due to the fact that the blood is either poor in quality or deficient in quantity. This anaemia is the cause of low spirits, languidness, the poor appetite, breathlessness, and the aching backs that make life a burden for so many women. There is no need for any woman to suffer in this way, for all the miseries of anaemia can be quickly banished by taking Dr. Williams' Pink Pills. It is an established fact that these pills create an abundance of new rich blood—their wonderful reputation is based on that.

Thousands of formerly weak and ailing women have cheerfully testified to the fact that they owe their restoration to good health to Dr. Williams' Pink Pills. One of these is Mrs. Napoleon Gallant, Tignish, P.E.I., who says: "I am among those who can strongly recommend Dr. Williams' Pink Pills. Before I began using them I was in an extremely nervous condition. I could not sleep, neither could I eat, and was constantly growing weaker. I got medicine from a doctor, but it did not seem to meet my condition, and then, on the recommendation of a friend, I began to take Dr. Williams' Pink Pills. By the time I had taken a couple of boxes there was no doubt they were helping me. I continued their use until I had taken six or seven boxes when I was again in the best of health. I always keep Dr. Williams' Pink Pills in the house, and if any member of the family feels run-down the pills soon put them in good condition."

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old-time energy. You can get these pills through any medicine dealer or by mail, postpaid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Asked what he understood by "foreign entanglements," a schoolboy replied, "Spaghetti."

Minard's Liniment—good for tired feet.

A railway station in Oodnadatta, Australia, has only one train in two weeks.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Great works are performed not by strength, but by perseverance.

Neuralgia succumbs to Minard's Liniment.

The typewriter is credited to C. L. Sholes, printer editor.

Local Option In India

Voters In Town Of Taran Went "Dry" To A Man

An astonishing thing has happened in the Punjab. Citizens of the town of Taran have lately secured from the Provincial Government the privilege of holding a local option election as to whether liquor shops in the town should continue to operate. Over fifteen hundred voters went to the polls and voted "dry" to a man. This is probably the most decisive local option vote yet recorded in any country. The nearest approach to it possibly occurred in Kentucky some twenty years ago when about the same number of votes were cast, and all were "dry" except those of the two liquor dealers and their relatives—seventeen in all.

Minard's Liniment relieves pain.

For five cents a tourist can ride for hours around the city of Berlin. A system of transfer makes it possible to change at will from street car, auto bus or subway without paying extra fare.

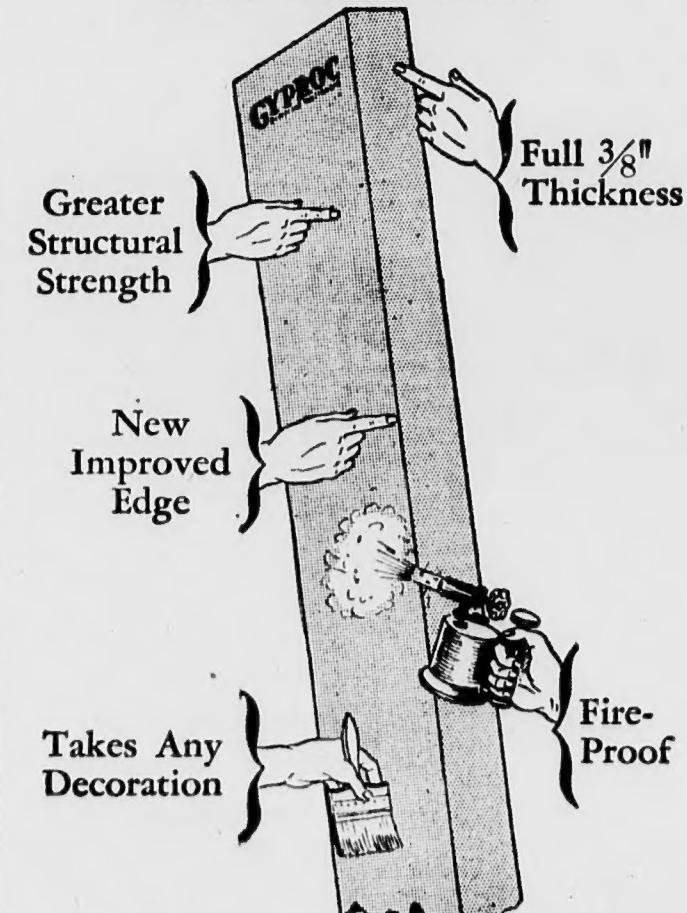

Scientists predict a toeless race. The borer is apparently not the only pest threatening the corn crop.

"A GREAT TONIC," SAYS MRS. RUSSELL

After Taking Lydia E. Pinkham's Vegetable Compound

Fenwick, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound during the Change of Life for nervous feelings, loss of appetite and to gain strength. It is a great tonic and I have taken a dozen bottles of it. It was recommended to me by a friend and now I recommend it to all women for such troubles as come at this time." —Mrs. W. V. RUSSELL, R.R. No. 5, Fenwick, Ontario.

All These Advantages For Farm Construction

For both old and new construction Gyproc gives more advantages than any other material. Makes durable, permanent walls and ceilings in less time and at less cost. Cannot warp, crack, shrink or burn, and is ideal for lining houses, garages, poultry houses, barns, grain bins and all other farm buildings.

Fireproof Wallboard

British Admiralty Has Brought To Perfection An Electrically Controlled Torpedo

After several years of experimenting with a new type of electrically controlled torpedo, the British admiralty has brought to perfection a projectile which follows the target and carries sufficient explosive to blow the vessel in two when it scores a direct hit, according to reports heard today.

In a test on the admiralty range in Portsmouth harbor, one of the torpedoes got out of control and tore around the harbor at 40 knots. Fast admiralty vessels chased it but they could not overtake it and finally the torpedo landed at Weymouth beach.

Spectators were not allowed to approach within 100 yards of the mysterious projectile and photographs taken by several persons were confiscated for fear the secret of the torpedo's mechanism might be revealed.

The torpedo is not fired like an ordinary torpedo, but is launched into the water. Thus the vessel that is carrying it is able to hide in a cove and destroy the enemy fleet with these electrically guided torpedoes without revealing the torpedo carrier's position by an explosion. Once launched, the torpedo is steered by a small wireless apparatus looking like two-tube amplifiers.

The first current applied starts the powerful driving mechanism at the back of the projectile. As it travels forward, a fine copper wire unwinds behind it apparently acting as a sort of aerial. A second wave current controls the steering apparatus which gives remarkable control, enabling the torpedo to follow all the twists and turns of the target. A fin, similar to that of an aeroplane's, gives the operator the choice of launching the torpedo over the surface of the water at a tremendous speed or of submerging it several feet in order to make a hit below the water line.

The tests produced amazing results. Several old vessels were towed out to sea and a torpedo launched many miles away from them. In every case, and there were 14 tests of this kind, a direct hit was scored by the operator who was able to guide the torpedo to within a foot of the spot aimed at.

The torpedo contains a new and deadly explosive of such strength that several of the target ships were cut in half.

The Weymouth mishap occurred when the control instrument burst a tube and left the operator able to guide the torpedo in one direction only. Hence the projectile made ever widening circles until it was grounded.

The explosion of the torpedo head is caused by the contact of four detonators, two on the head and two on each side. The explosion occurs immediately when any one of these come in contact with hard projects.

Mrs. Dull—The cake recipe Mrs. Smith gave me is too expensive to use. The eggs cost too much.

Maid—How many does it call for?

Mrs. Dull—Eighteen; the yolks of nine and the whites of nine.

Canadian Ice Cream For South Americans

Shipment Goes Forward To George- town, British Guiana, By C.N. Steamship

The first shipment of ice cream, which it is believed was ever made to South America from any place in Canada, went forward recently from Truro, N.S., consigned to Georgetown, British Guiana, by the R.N.S. "Lady Drake" of the Canadian National Steamships. The order, which is of substantial size, was received by the manufacturer entirely unsolicited, and the manager of the firm foresees great possibilities in this trade with the inauguration of the new service by the Canadian National Steamships.

Two years ago they made their first shipment of this delicacy outside of Canada to Newfoundland, and this has since developed into a regular trade. Convinced by their success in Newfoundland, the firm decided to extend the export field with the results as noted:

ONE-PIECE WRAP AROUND

It's one-piece! The smart printed silk crepe wrap around model with effective shirring and drape at right side, so suitable for street and all occasions wear. Its extremely slender line makes it so suitable for average full figure. The shirring is repeated at shoulders. Long sleeves have turn-down flared cuffs. A narrow belt crosses back and extends to each side of front. Style No. 469 can be had in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. In the 36-inch size, 27 yards of 40-inch material with $\frac{3}{4}$ yard of 40-inch contrasting, is sufficient. Plain silk crepe, canton-faille crepe, crepe Roma, wool crepe, printed cotton foulard and printed rajah silk are fashionable fabrics suitable. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles, and cute designs for the kiddies.

Fighting Dealers In Narcotics

Addicts In Egypt Spend \$25,000,000 Annually On Drugs

The extent to which the drug traffic is ravaging Egypt may be gathered from a statement by Colonel Russell Pasha, English head of the narcotics bureau recently established.

He declares that the number of Egyptians who habitually take drugs is estimated at more than 500,000 in a population of 15,000,000 including Europeans and considers that \$25,000,000 is spent annually on the purchase of narcotics.

The bureau is engaged in a stern fight against the dealers in narcotics. One member of the gang recently tracked down in Vienna is reported to have netted \$80,000 during the last two years from the drug traffic.

Three Years Making Table

Ohio Man Used 1,537 Pieces Of Wood But No Nails

Three years of tireless effort have made Burton W. Blair, Marion, Ohio, the possessor of a library table that is considered a work of art.

Without the use of a single nail or screw, Burton has constructed a table that many antique collectors would like to own.

The top is constructed of 1,537 pieces of wood, 17 different kinds being used to give the desired color effect.

Attractive in its simplicity, the unique table contains but three designs, the Masonic square and compass, composed of 62 pieces of wood, and the American legion emblem.

Blair is a World War veteran. He began work on his table October 5, 1925.

Girl Best Cattle Raiser

Twelve-Year-Old Annie Turner Is Champion Of British Columbia

This year's champion cattle raiser in British Columbia is little Annie Turner, twelve-year-old daughter of James Turner, Cadboro Bay stock breeder. Her 14-months old Short-horn steer, sired by Braithill Marquis and weighing around 1,100 pounds, won the grand championship of all breeds at the Kamloops bull sale and fat stock show.

But winning trophies for live stock is no novelty for Annie Turner. She won high honors last year and this year she repeated her triumph with cups and other trophies galore.

Prince Albert National Park

Prince Albert National Park, in northern Saskatchewan, has an elevation of 4,800 feet above sea level and contains many lakes and streams which form the beginnings of canoe routes leading both to Hudson Bay and to the Arctic Ocean.

Cadmium Produced In Canada

Cadmium was produced in Canada for the first time in 1928. It is used for plating purposes, in colour making, medicine, and dyeing.

British Youths Study Agriculture

An interesting group of British Public and Secondary School Students who have just arrived at Macdonald Agricultural College. These young men will pursue a two years' course of study at the college and during the summer months will work on farms where places have been provided for them. Recruited by the Department of Colonization and Development of the Canadian Pacific Railway the scheme under which these students have come to Canada now enters its fifth year of operation. On completion of their studies these new arrivals will engage in various branches of Canadian agriculture by which time they will have become accustomed to Canadian methods.

Canada Makes Great Strides In Past Few Years In Work Of Aerial Mapping

Strong For Daylight Saving

Twenty-Five Million In States Will Live Under It This Summer

The Merchants' Association of New York announced recently it had completed a survey showing that 25,000,000 persons in the United States will live under daylight saving time this summer.

While a few of the smaller cities and towns have discarded the practice since last survey was made two years ago, the association said the latest inquiry shows the movement on the whole is growing.

A bill authorizing daylight saving is now pending in California; Massachusetts has a statewide daylight saving law; the whole state of Rhode Island will be on daylight saving by virtue of numerous local ordinances, and virtually the entire state of New Jersey will observe the new time.

In New York State 186 cities and villages set clocks ahead, and 33 communities in Connecticut will again adopt the plan. Chicago and eight other cities in Illinois and six cities in Indiana are among other places to adopt the scheme.

Decline Of Chivalry

Knighthood Appears To Be No Longer In Favor

It was bound to come. Woman, having every field of male activity, insisting that complete equality between the sexes should be demonstrated beyond dispute, now laments the absence of qualities of which she has deprived the sterner sex in the process of competing with them. A correspondent who writes to the Star lamenting the lack of chivalry in men today suggests that women should create a demand for those graces in their own friends which former generations classified as "knight-errantry." But knighthood here at any rate is no longer in flower, and if chivalry is inseparable from titles, then there is small hope that the lady's wish will be gratified.

Montreal Star.

Must Be Perfect

The optical glass used in an astronomical telescope must be free from imperfections and internal strain. In the polishing operation only a few ten-thousandth parts of an inch of glass are removed. Errors of a millionth of an inch in the surface curve must be detected and remedied.

Canada has no leisure class. Those who have no business to attend to are busy at bonspiels in the winter and at golf in the summer. Those out of work keep busy watching the skyscrapers arise.

Canada is taking pictures of herself from the air at the rate of some 66,000 square miles a year. In other words, Canadian flyers are adding to the aerial maps of this country an area equal to two-thirds of Great Britain and Ireland every year, according to N. C. Stewart, Victoria surveyor, who has recently returned from Ottawa after studying aerial mapping and general developments along this line.

"These maps are not taken for any mere scenic record, although they would be well worth while for that alone," said Mr. Stewart. "The maps are used for tracing mineral deposits, oil and timber resources, locating transportation routes, range land and water courses. The airplane is giving Canada the best opportunity she has ever had of studying herself and finding out just how wealthy her resources really are."

Aerial mapping is a comparatively recent development in Canada, although in the last two or three years amazingly long strides have been made. In 1921, for instance, only 250 miles were mapped, while last year the area mapped from the air totalled 66,400 square miles. Last year the Royal Canadian Air Force made 4,000 photographs from the air under direction from the topographical survey department.

There are two methods of air mapping—the oblique and the vertical. The former method covers territory much quicker than the latter, and is practicable in flat country but in British Columbia it will be necessary to use the vertical method.

While the accurate production of maps from aerial photography calls for a good deal of ground control in co-operation with aerial work, the aerial pictures are an excellent means of making quick maps of new territory, a frequent demand in these days of rapid mineral and timber development, according to Mr. Stewart. He states that new aerial maps of Northern Ontario and Manitoba show how detail may be obtained in this way that would take years of ground work. On some of the Ontario sheets thousands of lakes have been mapped that never appeared on the records before the pictures were made.

In the next ten years Canadian officials expect to have a million pictures of Canadian territory, according to Mr. Stewart. One-quarter of that number have already been obtained.

Area Under Irrigation In Alberta

In southern Alberta there are now ten large irrigation projects in operation comprising an area of slightly more than one million acres susceptible of irrigation from the 5,500 miles of canals and ditches already constructed.

"Do you see that man through the window? He hasn't moved for twenty-four hours. He can't be asleep; he must be dead. I am going to call the police."

"Oh, it's all right. There's a chess tournament going on in there."

Dry mouth and parched throat are grateful for the refreshing coolness of Wrigley's Spearmint.

Wrigley's whitens teeth, sweetens the mouth, clears the throat and aids digestion, while the act of chewing calms and soothes the nerves.

Transient advertisements to be paid for when ordered.

Display advertising rates on application at the office.

Changes of advertisements must reach the office not later than noon Tuesday to ensure insertion in the issue of that week.

E.J.C. GOODER, Editor & Manager.

THE KEY TO SUCCESS

Put everything you have into the job you are doing, whether it is sweeping floors, running a punch press, keeping a set of books, managing a department. Put your best into your job. Do it better, if you can, than anybody else ever did it. Master the job. Run the job and don't let the job run you. Constantly make your best better. Use your head. Find better ways, easier ways, quicker ways of doing your work. Make yourself more skillful.

Be loyal. Be dependable, for a ounce of loyalty is worth a pound of cleverness. If you work for a man work for him, not part of the time but all of the time. Speak well of him. If you want to damn him get out and damn him to your heart's content, but as long as you work for him, stick up for him. Be courteous willing and helpful, not only to the boss, but to the new man as well. Treat him as you wanted to be treated when you were a new man.

If you are ambitious and want a better job, prepare yourself for it. Work and study. Make yourself able to do other jobs than your own. When the better job comes, be ready for it. If you are not ready, it will go to the man who is, the man who has prepared. All around us we see men on jobs they think not good enough for them and they do just enough to "get by." They say, "wait until I get a real job; then watch my smoke." If you had a job that needed a real man to do it would you give it to a man who had a wishbone where a backbone ought to be? Of course not! You would give it to a man who was already making good in whatever he happened to be doing already.

Once in a while, it is said, that it is "pull" more than good work that secures promotion, but in 99 cases out of 100, when an employee makes that assertion, he is trying to excuse his own inability to hold down the better job. In these times the employer who fills important jobs by "pull" instead of ability isn't going to remain in business very long. There is no substitute for the ability to do a piece of work well.

The kind of work to be done changes with the years, but work itself remains, and the work of Canada required by our present and our constantly increasing standard of living cannot be done except by plain, old-fashioned hard work. — Canadian Nation Magazine.

SILENCE AND SPEECH

Although in the downtown districts of our cities the sidewalks are still crowded with pedestrians, it is probably true that walking has become an obsolete pastime in America. The rushing in and out of stores in the shopping districts isn't walking, anyway, in the opinion of lovers of that form of physical exercise.

We have lost the feeling of leisure which in former days was so conducive to walking. Even in our motoring we seem to be possessed of the idea that we must hurry to get somewhere, although we may have no particular destination in mind. An Englishman who even during his visit to this country spent much time in walking, said of us that the pictures in periodicals representing the occupants of automobiles reclining in luxury and enjoying magnificent scenery did not depict us truly. That

LOCAL & GENERAL

Mr. and Mrs. A.C. Fisher motor to Edmonton on Empire Day.

Mr. and Mrs. J. Boorman and family motored to Lacombe Saturday.

Mr. Bennie Robinson was a visitor to the capital city over the holiday.

Mr. Ed. Pearson has taken a position assisting at the North End Lumber Yard.

See Gary Cooper in a new romance, "Wolf Song," at the movies, Saturday, June 1, 7:30 and 9:30.

Messrs. Ted Brown and Jim Hallton were visitors to Calgary over the week-end.

Mr. and Mrs. J. Clarke motored to Stettler on Thursday to visit with the latter's parents, returning on Sunday.

Mr. S. McDougall and family of Unity, Sask., stopped off in Didsbury enroute home, visiting with Mr. H. Tonjum.

Mr. and Mrs. E. G. Ranton accompanied by Mr. and Mrs. W. J. Hillyard, motored to Edmonton Thursday last, returning to Didsbury Saturday morning.

Miss Amy Wilson, nurse-in-training at the General Hospital, Calgary, is spending her annual furlough with her father, Mr. Chas. Wilson.

Everybody reserve the evening of June 19th and attend the lawn social to be held at Mr. Chas. Young's (7 miles west of town on the blind line). Cafeteria style tea 6:30. Program and games. Admission to grounds Adults 25 cents, Cheerio branch of the R.W.I. 22-8

s not the way we cover the mils.

He was greatly amused over the fact that during his walking tours he was frequently offered rides by motorists. "They did not seem to understand," he says, "that a man on a walking tour is not in need of vehicular conveyance. They act as if the best thing about walking is giving it up and having a ride."

Obviously the automobile does not permit of sauntering. When the road is good, there comes the irresistible impulse to make the most of it, which to nearly all drivers means anywhere from 35 to 60 miles an hour. And consequently there is lacking the opportunity for quite enjoyment of the passing landscape; and lacking, too, is the inducement for reflection and restful meditation which walking, either by one's self or with agreeable companions, makes almost inevitable. In its own way motoring has its pleasures, and on the whole they are no less than those of walking. And perhaps in the stress of modern life it is only natural that we should have taken to the thrill producing form of exercise.

DO NOT INVITE FAILURE

The dates for the year's examinations in connection with the Department of Education have been announced. Students are looking forward with anxiety to this crucial period in the year's experiences. Some of them are already trying to decide what they will do should they fail in the year's examinations. Naturally that course takes the spirit out of their study. "In the lexicon of youth," wrote Bulwer Lytton, "there is no such word as fail." The youthful, ardent, hopeful spirit does not take failure into account. It assumes success and so is far more likely to win it. Young folks! Put on your courage and determination to win, make your best possible preparation and go into the examinations, when the time arrives, bound under all circumstances to be successful.

May 6, Arbor Day, found the citizens of Bassano out in full force, planting here and there a large number of trees supplied by the C.P.R., D.N.R., Brooks. Some 250 trees were planted on the town streets.

We admire the citizens of Bassano for their endeavor to beautify their town in this way. Civic pride! Didsbury might well take the hint and endeavor, in some measure at least, to add to the appearance of the town. Drive through a town where there are no trees, and into one where there are—more, the better—and you won't have much difficulty in making a decision which of the two presents the most inviting appearance.

THE RETAIL MERCHANTS ASSOCIATION**

WISH to advise all Automobile owners that in accordance with a resolution adopted by automobile dealers in the age proprietors operating in Central Alberta District, extending from Ponoka to Didsbury (both towns included), and in towns east and west of the Calgary-Edmonton main line of the Canadian Pacific Railway, THAT on and after June 1st, Gasoline, Grease and Oil, Parts and Repair Department work, will be operated on a strictly cash basis.

In view of the fact that the items mentioned herein are sold by Wholesalers for cash to the Dealers, and as it is the desire of all Dealers and Garage Operators to render a more efficient service to the Public, we are of the opinion that the only way in which we can meet our obligations and attain a higher standard of efficiency is to eliminate Credit and the losses which are the inevitable result of this system of doing business.

We therefore appeal to all car owners in the District to co-operate with us in our effort to render a greater and better service.

In view of the foregoing, and in order to avoid the necessity of our having to refuse,

It is a woman's part in life to provide for the inner man and a man's to provide for the outer woman.

A MINISTER'S WOES

"Perhaps because it is so universal, criticism of the man of the cloth is more amusing than harmful," writes "One of the Cloth," in the "Aberdeen Press."

"From my experience, I have summed up the situation as follows:

"If a minister is not married, he ought to be; if he is married and has two or three of a family, how can he be expected to look after his job? If he spends his time in his study, people say he ought to visit more; if he visits and is interested in organization, they say he ought to spend more time in his study. If his sermons are carefully learned, they are too heavy; if they are topical and interesting, there is nothing in them. If a minister is correct in his conduct, he is too stiff; if he unbends and is human, he is lacking in dignity.

"So, not being able to keep up the standard set him, the poor man chuckles to himself and goes his own way."

GLIMPSES FROM THE PAST

20 YEARS AGO

An auto club was formed in Lacombe last week. Lacombe auto go ahead now.

General Booth, the veteran leader of the Salvation Army, will visit Calgary in the fall.

15 YEARS AGO

H. S. Patterson, A. G. Studer and H. W. Chambers spent the holiday on a fishing trip to the Fallen Timber Creek. It is reported they pulled out so many big fish that it resulted in the lowering of the water in the creek and they had to quit fishing.

Mrs. E. E. Frulling and children of Olds, were visitors over the week end with Mrs. B. A. St. Clair.

I. H. Levagood and J. Eubank were Calgary visitors last week.

10 YEARS AGO

Rev. and Mrs. J. Soltman and daughter of Pontiac, Mich., visited with Mr. and Mrs. M. B. Clemens for a few days last week. Mrs. Soltman is a niece of Mr. Clemens and this is the first time she has seen him in 20 years.

Alex. McNaughton and Dave Irwin were in Calgary last week attending the meeting of the milk and cream producers, and looking after the interests of the local dairy-men.

Jim McGhee, our local C.P.R. agent, has again returned to his duties at the depot after putting in some weeks on his property at Carmangay. He has seeded down 500 acres of land and states that everything looks in splendid condition in the south country.

W. A. Swingle purchased the Hugh Gilmore farm at the Dog Pound last week.

EVANGELICAL NOTES

The annual business meeting of the Ev. Church was called on short order for last Monday owing to the illness of the pastor's mother at Port Elgin, Ontario, which may necessitate his going to Ontario in the near future.

A most excellent spirit prevailed throughout the business. A number of new officers were elected and splendid reports were heard from all the departments financially and otherwise.

Last but not least, after all the business was over, a very beautiful leather purse, trimmed with pressed gold edge binding, and filled with silver, bills and checks was presented to the pastor as a special gift.

Mrs. M. Macgregor of Ruthilda, Sask., who has been visiting her daughter, Mrs. Dr. C. Bouck, Calgary, spent the week-end with her cousins Mr. and Mrs. W. A. Teskey.

Our readers will note the advert. on this page of the True Girls' Club Dance at Harmattan, Friday, June 7. This dance was to have been held May 17 but conditions of the roads at that time made travel in the country difficult. The postponed event takes place June 7. Everybody welcome.

The Rugby pupils were permitted to hear the Empire Day broadcast from the University of Alberta owing to the kindness of Mrs. Hosegood. The children were taken from the school to her home by truck where an educational and enjoyable afternoon was spent. Lemonade and cake were served which the boys and girls also appreciated.

About 24 friends gathered at the home of Mr. and Mrs. Steckley, on Monday, May 27th, in honor of Miss Doris Murphy's birthday. The evening was spent in games and singing, after which a dainty lunch was served. Miss Murphy received a number of very nice gifts, which shows the very high esteem held for her in the neighborhood.

Striking photo of Toronto's new waterfront taken from Hanlan's Point. The latest C.P.R. hotel, the Royal York, stands out prominently in the centre with the new Star building directly behind it and the Sterling Tower half way between it and the City Hall clock tower. On the right are Toronto's original skyscrapers at the corner of King and Yonge.

WORLD HAPPENINGS BRIEFLY TOLD

Lord Revelstoke, who died recently in Paris, where he was attending the meeting of the reparations conference, left half a million dollars to King Edward's Hospital fund for London.

The Nationalist government state council announced that henceforth decapitation as a method of execution in China would be prohibited. Decapitation had been discarded by previous regimes but it was still used by the police and military authorities for executing bandits and robbers. Its complete abolition has now been ordered.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

People expect too much of a boy who is at the growing age. When he has done his eating and his growing he has put in a pretty full day.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Exterminator.

British piano manufacturers have captured both the American and New Zealand markets from their American rivals.

Canadian Legion

Dominion Convention To Be Held In Regina In November Of This Year

The Dominion Convention of the Canadian Legion B.E.S.L., will be held in Regina on November 25th 1929.

To those ex-service men who are not members of the Legion, the present is an opportune time to become identified with the organization that has done much to promote the welfare of returned men, their widows and dependents.

The work of the Legion is not diminishing as the years go by, but rather is growing. The membership likewise is increasing and particularly so in Saskatchewan since the Provincial Convention, but in the province there are still a number of men who are eligible to join, and who have not as yet identified themselves with the organization, possibly due to lack of opportunity to do so.

With the increase of branches throughout the province, there is now local representation in practically every district, and the provincial secretary, Canadian Legion, Regina, will be pleased to advise anyone, on request, of the nearest local branch.

Unity among returned men was accomplished when the Canadian Legion came into being some years ago. All that remains is to complete the membership and make the organization even more representative than it is today.

On its record of achievement alone, the Legion deserves the support of all ex-service men, and it is hoped that the next few months will see every eligible man in Saskatchewan enrolled. The dues are nominal, but the presence of every returned man in the ranks of the Legion will be of the utmost value in furthering the aims and objects of the organization, and in promoting that comradeship which is one of its biggest assets.

Minard's Liniment for cuts and bruises.

New York City claims a population equal to that of the states of Montana, Nevada, Utah, Idaho, Colorado, Arizona, New Mexico, Wyoming, North Dakota and South Dakota combined.

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

"Why couldn't they get on together?" "Well, you see, he's a Scot and she would persist in washing out his shaving brush every morning."

Baby's restless nights might be avoided

Scalded skin and other skin troubles are common causes of restlessness, and often could be avoided by careful bathing with Baby's Own Soap.

Its fragrant lather cleanses and heals Baby's skin, and prepares for restful sleep.

"Best for you and Baby too" 25¢

When intensely angry and searching for a fitting word to express yourself, say "Roosevelt," which, we are reliably informed, is the biggest dam known.

Useful In Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Eclectric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

A dentist is the only person who can tell a woman to open and shut her mouth at will and get away with it.

NO MEDICINE LIKE BABY'S OWN TABLETS

Once a Mother Has Used Them She Will Use Nothing Else

To once use Baby's Own Tablets is to use them continually—that is as long as there are young children in the home. That is the testimony given us by mothers from all parts of Canada. They all say that they know of nothing to equal the Tablets, that they find them safe and efficient and at the same time pleasant to take.

Mrs. John Hollinworth, Maidstone, Ont., writes:—"I have three children, the eldest fourteen and the youngest nine months old. I have always used Baby's Own Tablets for them and have found no other medicine to equal the Tablets as a relief for the many ailments of childhood."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach. They drive out constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Fixing Blame For Accidents

Most Drivers Usually Maintain They Were In The Right

Human nature at its most unreasonable point, is apt to be manifested after an automobile collision. If one happens to witness such a smash, and gathers in the bunch that collects around the two colliding cars, he will probably hear some loud and irrational arguing.

The two drivers, if the collision was serious, are suffering from nervous shock, and will say things they would not say under ordinary conditions. Some people have the manliness to admit they were wrong, but the ordinary thing is for each driver to maintain that he was wholly right and not to blame in any way.

The truth usually is that both parties were somewhat to blame, though one of them may have been principally at fault. These things happen so quickly that it is almost impossible to assess the responsibility with strict accuracy. But it either one of the two drivers had been following a policy of special caution, nothing would probably have happened.

New Silver Process For Purifying Water

German Scientist Discovers Cheap Method Of Killing Germs

Sterilizing water for drinking purposes will be an easy matter if the method discovered by a Munich engineer, Dr. George Krause, proves feasible.

All that is needed to destroy the myriads of germs contained in 10,000,000 quarts of water is one and a half grains of silver prepared by the Krause method.

A professor of hygiene at Greifswald University, Dr. Rudolf Degkwitz, who has made a thorough test of the process, confirms the efficiency of the invention.

Within less than an hour he succeeded in completely sterilizing a cubic centimeter of water which contained a million germs.

The new method is said to have several improvements. It works independently of temperature, it can be applied to any quantity of water and needs no supervising.

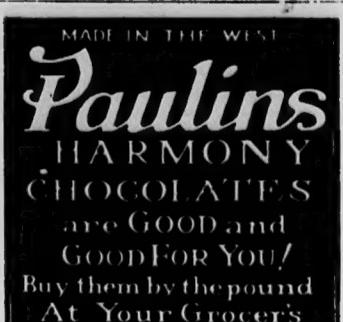

Customer—You say this material is the very latest fashion?

Assistant—The very latest material.

But will it fade in the sun?

No, it's been in our window for two years.

A nautical mile is 6,080 feet, or 600 feet more than a land mile.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude alkalis. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

The entire world recognizes that 21st, covered the 340 miles from Canada, in proportion to her population, is making greater practical use of aircraft than any other country and the "work" records of Canadian airplanes are regarded as even more important contributions to the advancement of aviation than the endurance and other stunt achievements of other countries.

Canada's latest and most impressive practical record in air is in speedy delivery of air mail and Capt. D. S. Bondurant, pilot for Canadian Airways (subsidiary of International Airways of Canada, Limited), as a result of a record flight between Toronto and Montreal, now holds the world's air mail speed record.

Capt. Bondurant, flying a Fairchild "71," powered by a Pratt & Whitney Wasp engine, on March 11, 1929, flew 340 miles from Toronto to Montreal in 60 minutes, maintaining a speed of over 3½ miles a minute.

Throughout the record-breaking flight Capt. Bondurant reported perfect performance from his plane which was fueled with Imperial Aeroplane Spirits and lubricated with Imperial Marvelube Motor Oil products which have become the almost universal preference of Canadian aircraft operators who choose them for 90 out of every 100 miles flown in Canada.

Notable Canadians Abroad

Many Have Risen To Great Eminence In Adopted Countries

Many epic tales have been penned about men who came to Canada as penniless immigrants and proceeded to reach the summits in politics and finance. Less has been told of Canadians who, lured to other lands, have risen to great eminence in their adopted countries. Yet innumerable cases could be cited. Only yesterday, for example, the press carried an announcement that James Couzens, senior United States senator from Michigan, had given \$10,000,000 for the promotion of child welfare. How many know that he is a Canadian—a product of Chatham, Ont.? Then there is Arthur Cutten, Chicago wheat king. Cutten was born and reared in Guelph his father being a law partner of the father of Hon. Hugh Guthrie. And only a few weeks ago Ottawa entertained Prof. Shotwell, the man who wrote the Kellogg Peace Pact, and a distinguished son of Ontario.

The truth is that United States universities and finance teem with Canadians. You will find them holding chairs in the Republic's great seats of learning, as captains of industry, as masters of finance. Some—as witness the late Franklin Lane—have risen to eminence in politics.

And as in the United States, so in Britain. Very few Canadians have emigrated to the British Isles, but

the proportion of that few to achieve success has been extraordinary. In politics, in journalism, in finance; in all these walks and in others, Canadians in England have been a brilliant success.

Sometime, perhaps, when we again come to commemorate some anniversary of Confederation, we should have an Old Home week for the whole of Canada; a week when all our exiles abroad might return for a visit to the land of their birth. It would be a memorable and illustrious gathering.—Ottawa Journal.

Roman Relics

Excavation Reveals Herculaneum, Famous Ancient Watering Place

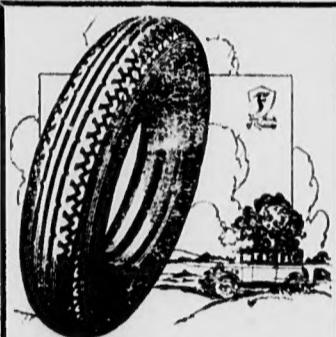

Italy is digging up its past with increasing activity. Following the lowering of the waters of Lake Nemi, to reveal Emperor Caligula's two whooper boats, comes the announcement of important discoveries in the work of resurrecting Herculaneum, famous Roman watering place near Naples, which was buried by Vesuvius lava in the times of Pompeii.

Excavators who are cutting through 110 feet of solid lava have uncovered another Roman house with fine mosaic paved floors in a perfect state of preservation, according to communications made to the ministry of public instructions.

Also discovered in the house were a number of objects in bronze and marble, tables, statues, a wooden bed, necklaces and amphoras.

According to the system adopted by Professor Hagoni, superintendent of monuments, all these objects will be left in the exact place found but will be protected by a glass covering so that the precise idea of how a Roman house was furnished will be given.

In another large house, a bronze bust, representing the protecting genius of a family, a painting depicting Venus and a bull were found perfectly preserved after 20 centuries.

Little Helps For This Week

"Obey My voice, and I will be your God, and ye shall be My people." — Jeremiah vii. 23.

Three roots bear up Dominion; Knowledge, Will; These twain are strong, but stronger yet the third, Obedience; It is the great tap-root that still, Knitround the rock of Duty, is not stirred, Though heaven-loosed tempests spend their utmost skill.

—James Russell Lowell.

Tenacity of will lies at the root of all courage; but courage can only rise into true manliness when the will is surrendered; and the more absolute the surrender of the will, the more perfect will be the temper of our courage and the strength of our manliness. "Strong Son of God," cries the poet, "Immortal Love, our wills are ours to make them Thine;" and that strong Son of God, to whom this cry has gone up in our day, and in all days, has left us the secret of His strength in the words, "I am come to do the will of my Father and your Father."—Thomas Hughes.

Known To Ancient Greeks

The first recorded experiment in electricity took place sixty years before the birth of Christ, when the Greek, Thales, of Miletus, rubbed pieces of amber and observed they would attract light objects.

Heating By Radio

French Scientist Says Wireless Waves Can Be Used To Warm Homes

Wireless beams from the Eiffel Tower may be employed to furnish heat for the residents of Paris, if tentative plans drawn by French engineers are put into effect.

Heating plants deriving their power from radio waves are operating successfully in Germany, according to Jacques Risler whose report forms the basis of these plans. Risler said that while the question of wireless heating houses is still in the experimental stage, the feasibility of it has been definitely established.

Explaining how the wireless heating plant would operate, Risler said: "In the laboratory two posts were set up about 30 feet apart. The sending post sent out from 400 to 500-volt current waves of two to three meters in length. All that is to be done is to interpose on the receiving post circuit a filament 'in vacuo,' and it is raised to an incandescent state and gives out quite appreciable heat.

"There is therefore no theoretical difficulty in installing in a house a series of receiving posts which would in reality be just so many electric radiators. This system could be extended ultimately to an entire district or to a whole city, which would derive its heat from one central broadcasting station.

Many Employed On Roads

The number of persons employed in road construction in Canada during 1927 reached a total of 34,230, and was higher than in any of the last eight years. In many districts this work is supplementary to the occupations ordinarily followed by the nearby residents, particularly agriculturists, during the slack periods on their farms.

A Foremost Fur Producer

Canada is one of the foremost fur producers of the world. Raw furs are the chief commercial product of the wild life of the northern half of the continent and as such represent the only economic return from large areas in the Dominion.

NEVER wait to see if a headache will "wear off." Why suffer when there's always Aspirin? The millions of men and women who use it in increasing quantities every year prove that it does relieve such pain. The medical profession pronounces it without effect on the heart, so use it as often as it can spare you any pain. Every druggist always has genuine Aspirin tablets for the prompt relief of a headache, colds, neuralgia, lumbago, etc. Familiarize yourself with the proven directions in every package.

ASPIRIN

Aspirin is a Trademark Registered in Canada

Egyptian papyri 2,000 years old are in better condition today than some of the paper which went under the printing presses during the World War.

HEADACHE RELIEVED QUICKLY

 **CARTER'S HEAD-PILLS** quickly corrects the digestive disturbances, removes the intestinal poisons, and sick headache quickly disappears. Your whole system enjoys a tonic effect, constipation vanishes, and you feel a renewed vigor. Avoid bromides and dope, they are depressing and harmful. All Druggists 25c and 75c red pkgs.

The invisible difference

Many motor oils look alike, but there is a vast difference in the way they perform. Unfortunately this difference is difficult to detect.

The invisible difference which makes one motor oil better than another must be inherent in the crude from which it is made.

There you have the reason why Marvelube gives better engine lubrication than oils refined from ordinary crudes. Imperial Oil searched the world over for a better crude—and in South America they found it. From it they make Marvelube—a pure, carbon-free, full-bodied oil that resists the extreme heats and pressures of modern engine operation.

Aircraft operators prefer Marvelube because better lubrication means greater safety and longer intervals between overhauls. Motorists prefer Marvelube because it is the ideal oil for modern motors. It ensures greater power, greater flexibility and greater economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car. Consult the Marvelube Chart at Imperial Oil service stations and dealers.

Lively Victoria Day Program Rugby School

Under the auspices of Rugby School a very interesting and instructive programme was given on the evening of May 24th, by the teacher, Miss R. Brubaker and pupils. Scholars and their guests gathered at the banquet table and enjoyed a delicious repast, after which the programme was opened by Miss Brubaker's remarks on Empire Day. The toast to the King, was proposed in an efficient manner by Billy Novacuse. Then followed a programme of speeches, toasts and songs, contributed by the pupils. The speeches on chosen subjects formed an oratorical contest, in which eighteen pupils took part.

Class I consisted of pupils of grades I to III. First prize in this class was won by Carl Reich, speaking on the subject "Why I am going to be a farmer." Carl has lived in Canada only two years, but has progressed so well that he carried off the honors. Second prize went to Annie Stakenas on the subject, Canada's Resources. In this class Edith Reich deserves honorable mention for her contribution, Why I came to Canada, came a close second.

Class II. Donald Shannon on Alberta's Sugar Industry, won first place in this group, while Arnold Russell drew second prize on the topic, Fur Farming.

Class III gave speeches of particularly high standard. Albert Krebs came first taking as his subject, Turner Valley Oil. Mary Prethero stood second giving a colorful speech on Canada's Beauty Spots.

The prizes are accounts deposit in the Bank of Montreal, while those taking part for the first time were presented with pins.

While the judges, Mr. W. Davies, Misses G. Brubaker and A. L. Johnson retired, Miss Brubaker called upon the guests, who responded in a lively manner, all expressing their appreciation of the evening's entertainment. Following this, Mr. Davies announced the winners, and gave a very helpful and instructive comments on the work. All speeches were of a high standard, and showed much careful preparation, and reflected much credit upon the pupils and their teacher. Those present regretted the absence of special speakers invited from outside points, but all agreed that this year's program was the best yet. Singing Auld Lang Syne brought this most successful evening to a close.

Burnside Notes

Messrs. Dave Jenkins and Robert Munson spent a few days last week in this vicinity, taking in the W.I. picnic and visiting the former's parents, Mr. and Mrs. A. A. Jenkins.

The W.I. held a very successful 3-day course in First Aid and Home Nursing last week. Miss Conroy who conducted the class was a most interesting speaker and the first aid course was attended by all the Grade 8 pupils from the Jutland and Burnside schools.

The Hall Board is holding a dance in the hall on June 14. Carrstairs orchestra. Everybody welcome.

The annual W.I. picnic on May 24 was a huge success as usual. The large crowd thoroughly enjoyed themselves and the dance at night was the largest ever held in the hall. The Ladies' cleared \$125 after all expenses were paid.

Mr. Hugo Ueland spent the week end visiting Mr. Don McCulloch.

The W.C.T.U. will meet at the home of Mrs. N. Eckel on Wednesday, June 5.

The Junior W.I. will hold their June meeting on Monday evening, June 17. Miss Annie McCulloch will give her report of the Farm Young Peoples' week at Edmonton.

Mrs. Wm. McCulloch and Mrs. N. Eckel are attending the W.I. convention in Edmonton this week.

The Burnside U.F.A. will meet Monday evening, June 10. A full attendance is requested as arrang-
